

British Crystallographic Association

Dear BCA Member,

The BCA Spring Meeting 2017 will take place at Lancaster University on 10 - 13 April.

It is already time to start planning the programme, and we are therefore seeking your suggestions for plenary speakers, session titles, keynote speakers and workshops.

Please send your ideas to the relevant group representatives in the Programme Committee listed below. The Committee will meet in early June, so we hope to receive as many suggestions as possible within the next 4 weeks. Any more general comments or suggestions for the meeting can also be sent to me.

We hope to see you in Lancaster next April, and that you will help us now to put together the best possible programme.

With best wishes,

Andrew Bond
Chair of BCA Programme Committee 2017
adb29@cam.ac.uk
